ABOUT CARBER POWER

Carber Power was established in 1979 to serve the industrial power market. Located in Annapolis Junction, MD, in the Baltimore-Washington corridor, Carber Power provides sales and service to the commercial, military and government market segments. Carber Power is an authorized distributor of top tier providers including Deka Unigy, C&D Technologies, Hindle Power, Yuasa, Unipower, EnerSys, Hoppecke and Northstar battery products. Carber's servicing capabilities include the design and integration of complete power systems including battery power plants, rectifiers, breaker distribution panels and monitors.

Battery Technologies

- Valve-Regulated Lead-Acid (VRLA)
- Flooded lead-acid
- Gelled lead-acid
